JUNIOR CLUB REPORT

We presently have seven members attending our Monday morning meetings of the Junior Club. They are as follows:

- Maggie Larkin
- Annette Lum
- Denise Shirley
- Ashley Supplee
- Victoria Tran
- Alistair Welch
- Elizabeth Welch

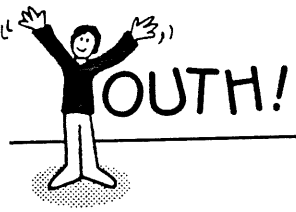

At the present time we are working on the United States Stamps and learning how to organize their stamps. The kids arrive at the Shirley's about 9:30 am and we work on our stamps until 11:00 or 11:30. Then they all go swimming for a bit and we eat lunch.

Sometimes, if after lunch, if time permits, we might play a game -- kids love to play games!

There are a few needs of our group.

We have been working on the Presidential Issue and if anyone has some extra stamps of the following numbers, we sure would appreciate them. The numbers are as follows:

- U.S. 808 -- (2) ok
- U.S. 818 -- (4) #/
- U.S. 821 -- (4) o
- U.S. 822 -- (3) //
- U.S. 826 -- (1) !
- U.S. 827 -- (1) ;

(Of course they are all looking for \$1, \$2, \$5 stamps in this series -- U.S. 832, 833, and 834).

If anyone has any "hinges" they don't use any more, we would be happy to have them for the junior collectors.

Each week we seem to have just about 100% attendance. The youth are getting to know one another and it also advances their interest in stamp collecting. If anyone wishes to come join us on a Monday morning, you are MOST welcome.

L.C.P.S. " SPOTLIGHT "

BOB STEVENSON is well known to all members of the club and seems to always have a wonderful smile and warm greeting. Truth is when we think upon it, there are a host of friendly smiling people in the Lancaster club. One hypothesis that may explain it is this: we suspect stamp collectors smile a lot because they are always thinking about all of the stamps they have closeted away in the nooks and crannies of their homes. Even if they can't find them all -- they are content knowing their stamps are somewhere in the house.

Well BOB has lived in Lancaster since 1950 and in the same house 43 years! That's a bit on the remarkable side as the average household in America changes locations every seven years! BOB is what you might call a "stayer-putter." A chemical engineer by training he worked much of his career at Armstrong World Industries.

BOB'S wide-ranging interests have been a natural link to stamp collecting. He first became interested in collecting stamps when as a Boy Scout he earned the Stamp Merit Badge. He's been watching birds for about five years; participates in Elder Hostiles; likes to travel; likes gardening; is a volunteer tutor; loves history and is a member of the Historical Society.

He generally does not collect stamps when he travels he tells us. Why? Well most times when he gets to where he is going, the post office is closed!
