Shows **John Ford** with three lesser-known participants in cinematic history

The **John Ford** stamp was issued May 23 in part because none of the four was born on that date and in Silver Spring, MD, because none of their films was made there.

The original price of the **John Ford** stamp was 45¢, but the face value has already risen to 55¢ and all current indicators point to its continuing to go up.

The **John Ford** stamp would have won the 2012 “Linn’s Stamp News Popularity Poll” if it had received more votes.
