PRESIDENT'S MESSAGE

Happy September!

Summer will soon be over. Enjoy these last days because summer officially ends September 22nd. I hope everyone enjoyed the Labor Day Weekend although I suspect some picnics had to be moved indoors.

This month we will hear about the success of the August Expo. We will also have another informative program given by Leighton.

Club members – please consider writing an article for the newsletter. Pick a subject, select some cards, give me the information that goes with each card and I'll do the rest. I hope to hear from you.

See you September 19th!

BEARD DAYOR NOT

By Jim Ward

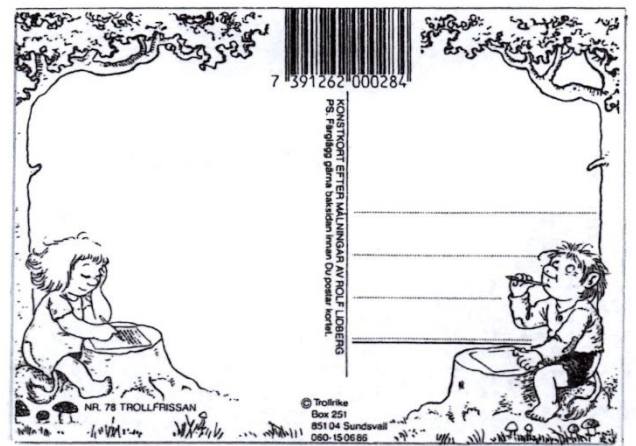

September 3rd was International Beard Day. It's long gone now, so let's celebrate "Beards-Coming-Off Day" instead. And our grinning little tyke shows us the instrument of choice for millions of men for several generations – the Gillette Safety Razor – "No stropping, No Honing."

King Camp Gillette imagined the idea of a safety razor in 1895, developing that into a working model that could be submitted to the [Patent Office](#) took six years. Gillette and other members of the project founded The American Safety Razor Company on September 28, 1901. During its first year of operation, the company had sold 51 razors and 168 blades, but the second year saw sales rise to 90,884 razors and 123,648 blades. The company was renamed the Gillette Safety Razor Company in 1904

Supposedly the 5-o'clock shadow, dirty looking, faces we see today began more than a generation ago when film producers wanted their star of Miami Vice, Don Johnson, to look more rugged – more macho. The popular TV show set trends in fashion, and music for years. And the Dirty Face was its longest lasting product. Ugh.

The dignified beards of more than a dozen Presidents ended with William Howard Taft; the last Supreme Court Justice with a beard was Chief Justice Chas. Evans Hughes. Statesmen, Authors, Poets and Explorers gave the beards a good name. They didn't wear a Dirty Face.

The troll is getting a delicate trim. The fellow with the hedge-clipper could do a faster job – on head and chin.

Our handful of cartoons include barbers and little shavers.

Above - Tourist – "Do you always spit on the brush when shaving?" Barber – "You're a visitor, My regular customers, I spit on their face."

Above right – "Excuse me! You're standing in my shaving water."

Bottom right – She likes my cheek."
