

ELIE BEATTY

HAGERSTOWN BANK

HAGERSTOWN BANK - CASHIER AND PRESIDENT

1807 – 1859

PHILATELIC SOCIETY

1814

OF LANCASTER COUNTY 1815 - 1936

NOVEMBER 9 , 2022

“ELIZABETH-TOWN”

In 1739, Jonathan Hager, a German immigrant from Pennsylvania and a volunteer Captain of Scouts, purchased 200 acres of land in the Great Appalachian Valley between the Blue Ridge and Allegheny Mountains in Maryland and called it Hager's Fancy.

In 1762, Hager officially founded the town of Elizabethtown which he named after his wife, Elizabeth Kershner. Fourteen years later, Jonathan Hager became known as the "Father of Washington County" after his efforts helped Hagerstown become the county seat of newly created Washington County, which Hager also helped create from neighboring Frederick County.

The City Council changed the community's name to Hagerstown in 1813 and the “Hub City” became the county seat of Washington County.

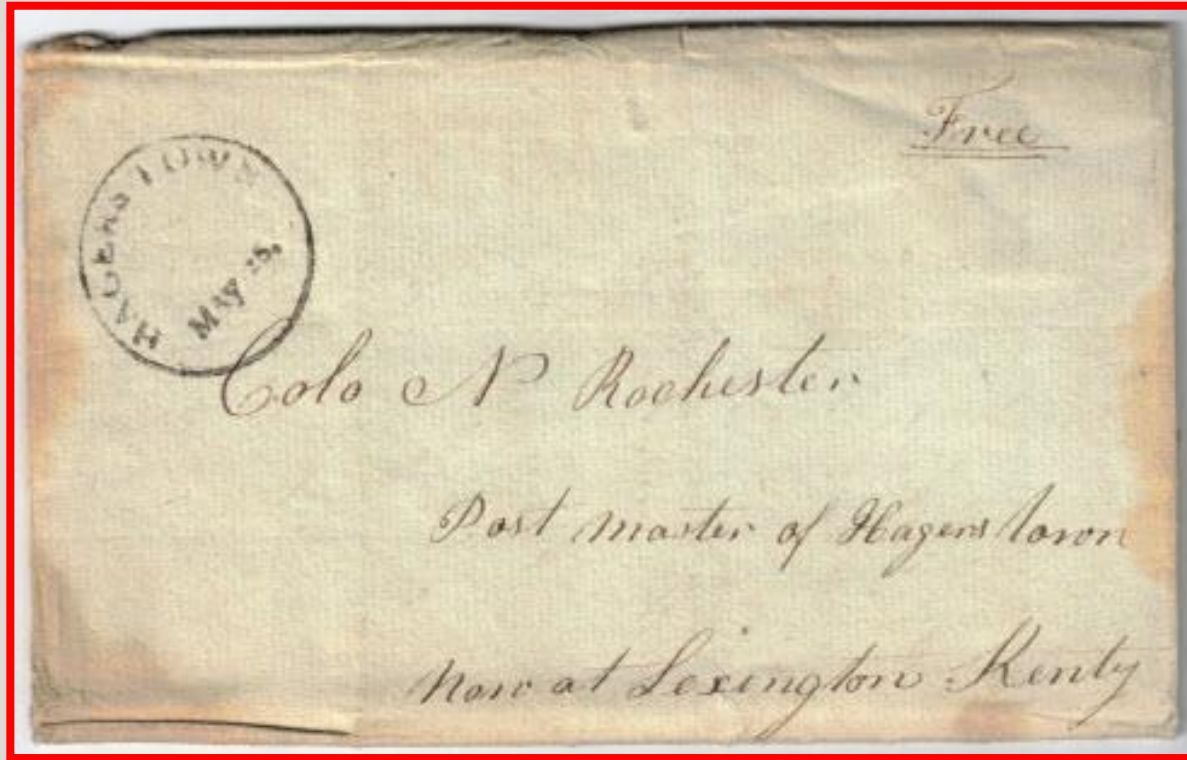

HAGERSTOWN BANK PRESIDENTS AND CASHIERS

- Elie Beatty –
 - Cashier 1807 – 1831 and 1832 – 1859
 - President 1831 – 1832
 - Nathaniel Rochester’s brother-in-law and previous Assistant Postmaster

NOVEMBER 15, 1825 CHAMBERSBURG, PA

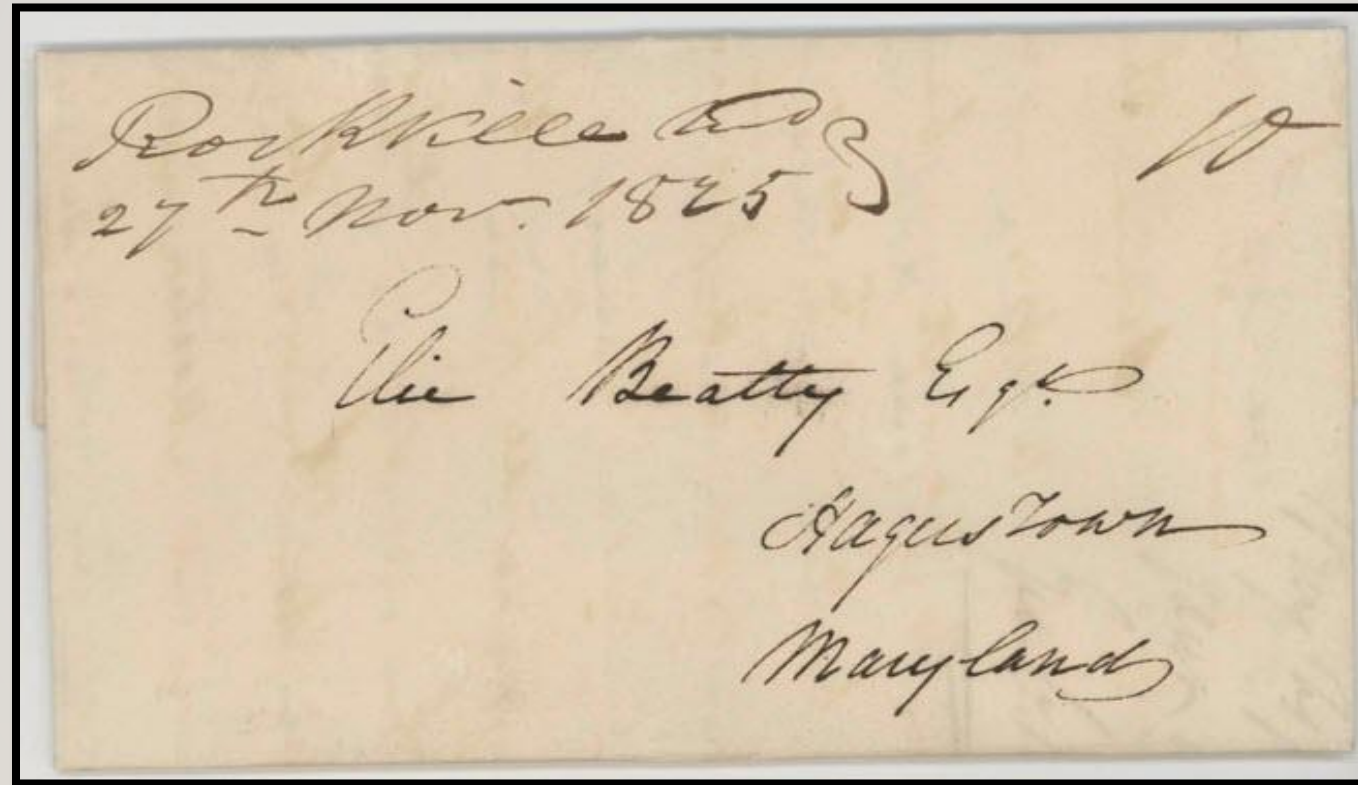

Under 30 miles - Double rate - $6 \times 2 = 12$ cents

Apparently, the cover was given to the post rider or stage within 30 miles of Hagerstown on November 15 of 1825 and it went to Hagerstown where it was noted Way and charged the double 6 cent zone fee. It states that it contained an enclosure, hence the double rate. Note that Chambersburg to Hagerstown is 24 miles, so it could have been handed to the post rider after the mails closed, forgot to go to the post office, got left on the desk, we will never know why it was handled in this manner. But it's an unusual postal history artifact. Way charges were not shown in the rate.

DANIEL SPRIGG – CASHIER 1831-32

Daniel Sprigg was born in Washington County, Md., in 1790, and died in Baltimore, MD in January 1871. In 1814, he came from Hagerstown as a member of Capt. Quantrell's Company and took part in the defense of Baltimore against the British attack.

He was for a number of years Cashier of the Hagerstown Bank, and was a vestryman of St. John's Church, Hagerstown, from 1816 to 1831.

Not long after the latter date he removed to Buffalo, New York, where he was cashier of the Branch Bank of the United States. On the establishment of the Merchants Bank of Baltimore, he was invited to become its cashier. He accepted this position and held it from 1835 until his death in 1871.

He was at one time elected to the Maryland State Senate by the Senatorial Electors but declined the honor.

Daniel Sprigg married Elizabeth, daughter of Alexander Chesley of Hagerstown. Mrs. Elizabeth Sprigg, wife of Daniel Sprigg, died in Baltimore, April 19, 1870, aged 76 years.

*Respectfully yours
J. I. Stull, Cas.*

I am surprised at the parsimony of our friends at Wmport in presenting an extension of the packet line to that place for want of a trifle - I conceive that it would have been attended with great benefit to that place, and to Hagerstown too. We have drawn off one of our boats, which at a trifling expense might have been extended to Wmport - our means were reduced too low to add more to it.

Office of the Chesapeake and Ohio Canal Company

Office of the Ches & Ohio Canal Company
Washington July 24th 1839.

Eli Beatty Esq.
Cashier of the Hagerstown Bank.

Sir - The President & Directors of the Chesapeake & Ohio Canal Company having determined to withdraw from circulation, the notes issued by the Company within the last two years, as a currency, they have provided means for their redemption at the Bank of Washington - where they will be paid in specie or its equivalent.

It is proposed to give public notice that these notes, for the accommodation of those who hold them, will be redeemed at all the Banks in Frederick, Washington and Allegany Counties, in specie or its equivalent, and I am directed by the President of the Company to ask the consent of your Bank to such publication, upon the appearance to you - that the notes will be redeemed from your Bank in manner at the Bank of Washington.

Respectfully Yours
John P. Ingles
Clerk - 1828 - 1840

THE LARGE BOXED “PAID” MARKINGS OF BALTIMORE

D. HOMER KENDALL

MARYLAND POSTAL HISTORY AND HANDSTAMPED MARKINGS OF THE STAMPLESS PERIOD

There are less than 10 examples known of the large boxed 48mm x 25mm PAID markings found on covers used with Baltimore townmark types 29 and 30. The word PAID is surrounded by a rectangular double line frame and the marking is struck in red.

All but one of the known examples of this marking are addressed to the Cashier of the Hagerstown Bank (Elie Beatty) and were sent by the Baltimore banking house of Sam Harris and Son. This marking is believed to have been applied for the purpose of attracting in unmistakable manner the attention of the postal clerks handling the letters to the fact that they were to go prepaid.

DECEMBER 9 BALTIMORE, MD (FAKE)

ANALYST: Patricia Stilwell Walker
REVIEWER: Van Koppersmith
PUBLISHED: Nov 1998 Issue of The
Chronicle of the U.S. Classic Society

Lets expertise!

APPARENT USAGE: Fully prepaid, double rate 5 cents per half ounce letter traveling less than 300 miles under domestic letter rates est. July 1, 1845.

ANALYSIS: This folded letter sheet is addressed to Elie Beatty in Hagerstown, MD and is part of the Hagerstown Bank “find,” a very prolific correspondence, readily available in the philatelic market. Inside the letter is a manuscript dateline: *Balte Dec 8th 1841*. The Baltimore Postmaster’s Provisional adhesive stamps and handstamped postal stationery envelopes were not issued until July 1845, *more than three years after this folded letter was mailed*. Furthermore, James M. Buchanan did not become postmaster of Baltimore until April 17, 1845 and was *not* postmaster during 1841 or any time prior to 1845.

The cover is handstamped with the blue BALTIMORE Md/DEC 9 cds and blue PAID markings typical of an 1841 period letter from Baltimore and are genuine. In addition, the blue manuscript 10 is the correct rate for a single letter traveling from 31 to 80 miles according to the official rate schedule established in 1816/1825 and valid until July 1, 1845.

The stamp design of the 10 cent Buchanan adhesive stamps (Scott 3X2 and 3X4) has the “James M. Buchanan” signature in a rectangular box, the dimensions of which are approximately 52mm x 11mm. The stamps were printed from a plate of 12 (2 x 6) containing nine 5 cent stamps and three 10 cent stamps. The handstamped 10 cent postal stationery envelopes (Scott 3XU3 and 3XU4), also issued in 1845, consist of a design that includes a handstamped signature (but *not* in a box), a handstamped PAID, and a handstamped numeral in oval, all applied separately. The unboxed handstamped signature is only known on postal stationery envelopes.

DECEMBER 9 BALTIMORE, MD (FAKE)

ANALYST: Patricia Stilwell Walker
REVIEWER: Van Koppersmith
PUBLISHED: Nov 1998 Issue of The
Chronicle of the U.S. Classic Society

Lets expertise!

The bogus handstamp on this folded letter is similar to the design of the stamps (3X2 and 3X4), *not* of the postal stationery envelope (3XU3). The dimensions of its rectangular box are approximately 51mm x 16mm. No generic Buchanan handstamp, with the signature of James M. Buchanan and a postal value within a rectangular box (i.e. similar to the adhesive stamp), is known.

In 1946 the Baltimore Philatelic Society produced souvenir sheets which included replicas of the Buchanan 5 cent and 10 cent adhesive stamps. These might be the source of the faked handstamp on this folded letter sheet. The frame lines of each stamp on the souvenir sheet were a rectangle; however, on the original Buchanan stamps, the frame lines were crossed lines. (Although unconfirmed, it is rumored that the plates to produce the souvenir sheets may still exist.) The handstamp on this cover is very similar to the design used for the 10-cent stamp in the souvenir sheet, except that the dimensions of the frame differ, the design of the souvenir sheet frame being 2mm shorter. It should be noted that the exact measurements of the original stamps are not consistent from stamp to stamp because of the different papers used. Even from the same plate position, the frame size of a genuine stamp can vary by as much as a millimeter in length.

CONCLUSION: This folded letter was originally a genuine 1841 stampless cover to which was added a bogus handstamp similar in design to the Baltimore Postmaster's Provisional adhesive stamps of 1845.
