# The Trenton Match Co., Trenton, NJ

- ▶ George O. Seward was listed in the 1869 *Trenton Directory* as match maker, foreman, superintendent of a match factory in Chambersburg, the 9th, 10th, 11th & 12th Wards of Trenton, located at 118 Hamilton Avenue near the canal. (●)
- ▶ The manufacturing capacity was 300 gross of matches per day; with eighty-five hands employed during the busy season; and principal shipments to the south.
- ▶ Then, the 1882–1885 Directories listed the Trenton Match Co. with George F. Wilson, proprietor and Geo. O. Seward, manager at same Chambersburg address.
- ▶ It was during this era that a single private die proprietary revenue stamp was issued.

**THE WORKS OF THE TRENTON MATCH COMPANY.**—The factory of the Trenton Match Company is located on Hamilton Avenue, and was put in operation in 1880. The proprietor is George F. Wilson; George O. Seward is manager. The manufacturing capacity of the works is three hundred gross of matches per day. During the busy season eighty-five hands are employed. The principal shipments are to the South.

# Their Private Die Revenue #RO176d

- ▶ RO176d: 1¢ Deep Blue, central image of the Coat of Arms of New Jersey, produced by BEP, Apr. 1881 – Feb. 1883.
- ▶ 7,770,000 printed, all on watermarked paper, 210 stamps per sheet (15x14).
- ▶ Not known used in multiples, but pairs and blocks of varying size remain.

- Stamps used on cylindrical wooden boxes 1.5"D x 2.75"H containing 60 or 70 matches with fine sand in base as a rough striker.
- Stamp adhered near top across seam of cover and base, so it was torn when opened; hence these stamps were not canceled.

# #RO176dt: Unlisted Major Double Transfer

- #RO176dt: unlisted major double transfer showing a 2.0 mm shift to the right across entire design. Most prominent features: left inner frame line; lower left numeral “1”; lower “TRENTON”; left figure “Liberty” drapery; the Horse head; right figure “Ceres” lower dress; and the three manual Hand Plows.

N.B. No other double transfers have been identified on the pane, besides position 44.

❖ The Trenton Match Co. pane of 210 , Plate No. 238 has been reprinted with the permission of Eric Jackson.

# Conclusion

- ▶ The Trenton Match Co. manufactured matches at their Hamilton Avenue Match factory near the canal in Trenton, New Jersey from the late-1860s to the mid-1880's.
  - They utilized the private die proprietary stamp #RO176d from 1881 through 1883 for use on their cylindrical 60-70 match wooden boxes to meet the Revenue Act of 1862, taxing matches.
- ▶ An unlisted, major double transfer has been discovered, is fully described within this presentation, and additional confirmatory stamps with the identical DT features has been identified.
- ▶ A full pane of 210, Plate No. 238, confirms DT at position 44.
- ▶ Next steps:
  - Have this new discovery certified by the PF.
  - Submit the PF and this presentation to the Editor-in-Chief of *Scott Specialized Catalogue*.
  - New variety should be denoted as RO176dt.
