PROPRIETARY REVENUES OF 1898

PRECANCELLED VARIETIES - by C.H. Chappell.

What stamps are more interesting than the Revenues? and when the specimen under inspection bears a bold printed cancellation, isn't there an added thrill in its acquisition?

The writer has been interested in precancelled U.S. Revenue stamps for many years, with a decided leaning toward the Battleship series of the Spanish War, and has found them the most fascinating of all the Revenue side-lines.

In the past, several attempts have been made to get these precancellations into listed form, but for various reasons, they were never successfully carried out. Mr. Franklin S. Smith owner of the finest collection ever assembled, did splendid work with painstaking articles in the Philatelic press, over a long period of years.

At the request of Editor Burns, I have undertaken a check-list of these 1398 Proprietary cancellations, and with wholehearted cooperation of collectors, feel certain that a presentable listing can be compiled.

Only the printed and typed cancellations will be given consideration in this list. The only exceptions being those few firms who also had private die stamps in this period. The handstamps of these few companies are of general interest and I feel they should be included. The listing will be alphabetical by proprietors, with types, dates and variations thereof, under each firm. The color is color of surcharge. Especial care will be taken in showing punctuation or lack of it, and upper and lower case letters as they actually exist. The letters R and H.H. signify rouletted and hyphen-hole perforated, The two styles of separation found on this issue.

In closing I earnestly request that all collectors having any of these precancellations send them to me for examination and prompt return, thereby assisting in the compilation of a worth-while check list of these fascinating precancellations. Address me at 14 Cisson St. Lyons, N.Y.
