W. R. WARNER & CO.
PHILADELPHIA, PA.

Introduction.—The first five types of this company's cancelations are all printed horizontally in two lines, with the initials above and the date below, and the initials are all from the same 3 mm. Roman font. "CO" is in capital letters.

Several different fonts were used to set up the date line and in Type 5, combinations of different fonts were used in the same date.

Type 1—The year is in a plain 3 mm. font and the month is in upper and lower case letters. The lines are spaced 3 mm. apart. Normally without a comma after the month.

 $1\frac{3}{8}$ c—July 1898; red ink; R.
 $2\frac{1}{2}$ c—July 1898; black ink; R.
July, 1898; black ink; R; comma after July.

Type 2—The year is in the same font as Type 1. The month has been eliminated and the lines are spaced $1\frac{1}{2}$ mm. apart.

Type 3—The year is in a plain 3 mm. font but the figures are from a wider font than Type 1.

Type 4—The year is in a plain 4 mm. font.

W. R. W. & CO.
1898

$1\frac{1}{8}$ c—1898; red ink; R.

Type 5—This differs from Type 1 in having the entire date expressed in figures. In this type several different fonts of figures were used indiscriminately in setting up the date, especially so in the month and day. These variations are shown in the text by the use of capital letters corresponding to the font descriptions, thus giving the font of each figure in the date. The year is most always entirely in font "A." The normal or "A" font is identical with the figures of Type 1.

Font "A"—Plain vertical figures. The "1" has a long diagonal serif but no base. 3 mm. font.

Font "B"—Narrow $2\frac{1}{2}$ mm. figures, printed diagonally. The "1" has a diagonal serif and a diagonal base.

Font "C"—Figure "1" only. Identical with font "B" but printed vertically.

Font "D"—Narrow $2\frac{1}{2}$ mm. light faced figures, printed vertically. The "1" has a serif and a horizontal base. The "2" has a long vertical spur on the end of its base.

Font "E"—Vertical $2\frac{1}{2}$ mm. light faced figures. Wider than those of font "D."

Font "F"—Figure "1" only. It is 3 mm. high and slightly wider at top and bottom.
